Subject;- Ranebennur Electric License 1937, War Costs Surcharge.

Sir,

D.28

Referring to your letter No 7042/36 EL of the 8th inst, we have to inform you that our Ranebennur Electric supply undertaking commenced its operation with effect 9-11-1939 and as such maintainance materials cost per unit generated for the year 1938-39 had to be calculated on t basis of the anticipated cost & for the purposes of the War Costs Surcharge we have assumed the maintenance cost of .042 for the yearendi 31-3-41 as the maintenance cost for 1938-39. We give the details of the figures referred to in your letter :-

(i) The no. of units sold in 1941-42 i.e., prior to the restrictions orders was 23820 against that in the year 1943-44 viz., 20190. Thus ther was a fall of 3630 units in the sale of energy, which at the rate as 6/ per unit works out at Rs.1361/-. It is however, pointed out that inadvertanlly the amount was calculated at the rate of as.4/- per unit, and thus the cost worked out at Rs.907/-. The figure of Rs.1361/- may therefore please be substituted for Rs.907/-.

As regards the amount of Rs.900/- the actual revenue from electr supply during the year ending 31-3-42 was Rs.7601-5-4 against the rever of Rs.7250-15-6 (excluding Surcharge on public lighting) & thus the shor fall in the actual revenue is Rs.350-5-10 i.e., approximately Rs.350/-. Thus with the addition of Rs.550/- being the revenue anticipated on account of additional load which was likely to be secured in the ordina course based on the requisitions received from the intending consumers, the loss works at Rs.900/-.

(ii) The maintenance materials cost of .042 per unit in the year endi 31-3-41 is actually taken to be the estimated cost for the year 1938-39 and in view of the fact that the undertaking had started operation for the first time, the maintenance materials ~~and starting~~ cost is negligib

Similarly the maintenance materials cost of 1.708 as.per unit in the year 1943-44 is the actual cost of maintenance materials as shown i the accounts for the year concerned.

We hope the above information would meet with your satisfaction and in case any further information be required by you, we would be pleased to supply you the same.

Yours faithfully,
For Manvi Brothers Gadag.

2. The claim for War Costs Surcharge at 40% appears justifiable in the present case. It is, however, for Government to decide whether a rate of surcharge in excess of the maximum rate of 33 1/3% allowed so far should be sanctioned.

Date ____ *194*

I, Sidramappa Andanappa Manvi, Proprietor of Messrs Manvi Brothers and licensee, the Ranebennur Electric License, 1937 hereby declare:-

(a) that if at any time my undertaking is assessed to Excess profits Tax in any chargeable accounting period ending subsequent to the date of War Cost Surcharge is ~~fixed~~ first fixed under the Bombay Electricity Supply(Licensed Undertakings' War Costs) Order, 1944, then the amount of the Excess Profit, after deduction of Taxation due thereon, will be recorded and I will specially reduce the charges for the supply of energy so as to result in an estimated reduction of gross revenue by an approximately equivalent amount during the next succeeding ~~period~~ two Accounting Periods following upon the completion of the relative assessment.

Alternatively, if the Government and I agree that such a special reduction of the charges for the supply of energy would, on account of other factors, result only in a temporary variation, or that the reduction would be negligible, the recorded amount will be placed by me to a reserve to be called the "Rates Stabilisation Reserve" and this reserve will be taken fully and fairly into account in determining the magnitude of any subsequent revision of War Cost Surcharges or charges for supply of energy whether upwards or downwards.

(b) that if at any time during the enforcement of the taxation provisions of the Execess Profits Tax Act, 1940, my undertaking in any accounting Period ending subsequent to the date of War Cost Surcharge is first fixed under the aforesaid Order, earns profits exceeding 7 per cent of the average amount of Capital employed in the business during the period, then the amount of the excess, after deducting any smaller amount recorded or set aside to Reserve in terms of clause (a) of this Undertaking and the taxation due on such excess, will be taken into account to reduce the charges for supply of energy or be set to the " Rates Stabilisation Reserve " in the same manner and on the same terms as are set out in the said Clause (a).
